

THE EPITRANSCRIPTOME IN CANCER AND AUTOIMMUNITY

UNIVERSITÉ PARIS-SACLAY,
FACULTÉ DE MÉDECINE

Keynote speaker

Prof. Dr. Michaela FRYE
German Cancer Research Center

Speakers

Dr. Mar NARANJO-GOMEZ; IRBM Montpellier

Dr. Albertas NAVICKAS; Institut Curie

Dr. Rami BECHARA; Université Paris-Saclay

Free registration

March 19th, 2026
3:00PM - 5:30 PM

Room 1, Ground Floor,

Research Building

63 Rue Gabriel Péri, 94270
Le Kremlin-Bicêtre

3:00-3:40 PM *Trageting RNA modifications in cancer*

Prof. Dr. Michaela FRYE

3:40-4:00 PM *Discovery of a tRNA-regulatory transcription factor that suppresses breast cancer metastasis*

Dr. Albertas NAVICKAS

4:00-4:30 PM *Coffee break*

FHU CARE²
Cancer & Autoimmune
diseases relationships

4:30-5:00 PM *Epitranscriptomics in autoimmunity:
where we are and where we are going*

Dr. Rami BECHARA

5:00-5:20 PM *Illuminating autoimmune diseases through epitranscriptome: insights from rheumatoid arthritis*

Dr. Mar NARANJO-GOMEZ

5:20 PM *Closing remarks*
